

OUR MISSION

Our philosophy in Early Childhood Education is guided by the basic understanding that each child is a unique individual with differing needs. The growth and development of a child requires creative interaction with teachers and peers in a positive learning environment. The whole child is nurtured in a gentle, constructive, caring atmosphere, where emotional, physical and intellectual growth is encouraged. Our school strives to create such a climate, where children can develop confidence, sensitivity and a healthy self-esteem.

Humpty Dumpty School will not discriminate in providing services to children and their families on the basis of race, sexual orientation, national origin, disability, religion, cultural heritage, political beliefs, or marital status.

INFANTS

Humpty Dumpty School serves infants by recognizing their individual differences and needs. The infant program is designed to help children feel secure, with attentive adults warmly responding consistently and supportively to each child.

TODDLERS

The toddler years are truly amazing. They are filled with magical discoveries, developmental achievements, and strides in independence and a multitude of challenges. The toddler staff is dedicated to ensuring that not only your child's needs are met in a stimulating and developmentally appropriate environment, but also to helping parents embrace and savor the wonderful adventures that their toddler will lead them on.

PRESCHOOL

Our Preschool program, for children 2 years 9 months up to 4 years, introduces the small child to that larger world outside of the home. We help children develop good personal habits and self help skills.

PRE-KINDERGARTEN

Our Pre-Kindergarten program, for children 4 to 5 years, continues to build and enrich children's skills and strengths. Gross and fine motor skills are refined. Cognitive and critical thinking skills are continuing to develop. Pre-reading, early math, science and social studies activities are introduced. Our goal is to help your child find out what their interests are and develop them, as well as try out new experiences. We are working towards developing life-long learners as your child develops into a unique individual in this complex world.
